

## COMP 14, Comprehensive Pledge

For all of my work in COMP 14, I pledge that I will neither *give* nor *accept* unauthorized aid. This includes, but is not limited to, the following:

- I will not discuss assignment *solutions* or collaborate on assignments in any way with anyone other than COMP 14 staff;
- I will not access/view posted solutions to assignments prior to submitting the corresponding assignment;
- I will make every reasonable effort to protect my work (computer screen, printouts in the lab, floppy disks, etc.) from access by other students.

I understand that during recitation I may be allowed to work with other students, but only on recitation assignments.

I have read and understand the “Information for Students” section of the UNC Chapel Hill Honor System web site (<http://www.unc.edu/depts/honor/>).

I have read and understand “Honor Code Observation in Computer Science Courses” (<http://www.cs.unc.edu/Admin/Courses/HonorCode.html>).

I am aware that the normal sanction for cases involving academic cheating is *suspension*. If I am ever so desperate that I feel compelled to violate the honor code, I will immediately contact the instructor for assistance.
