

## Homework Assignment #4

**due: Wednesday, February 5, 3pm**

**(1.: copy into ~/share.dir/) and give read permission**

**(2.: see specified below)**

1. Finish today's in-class task 10 (the traffic flow task). Copy the program, so your python script, into your ~/share.dir/ and give read permission with `chmod a+r ~/share.dir/*`.
2. The second version of the bibliography and model of your main project. Use my feedback on your first version. Please hand in
  1. Hardcopy of list of references. Please also have copy with read permission in your ~/share.dir/. Indicate your major reference, but also include further references (prep for background; keep in mind that your final version should have at least five references.)
  2. Hardcopy and copy in ~/share.dir/ with read permission of your main reference.
  3. Hardcopy of description of your model, fill in every detail.
