

## Homework Assignment # 9

due: Wednesday, February 26

put pdf-file into `~/share.dir/` and give read permission

### **First Version of Main Project slides**

Use the information about scientific talks from our Feb. 24 class. Plan your slides for your main project talk. If hand-written notes work well for you, then just hand those in as hardcopy and please scan them in and put a pdf-file of them into your `~/share.dir/` and give read permission. If you are using power point, then put your power point slides into your `~/share.dir/` and please also make a pdf-file of them and also put that into your `~/share.dir/`. If you use latex beamer, please put your pdf-file into `~/share.dir/`. If you use overleaf, you may want to share your overleaf document with me. If you use google slides, please send to me the link to your google slides and also make a pdf-file which you put into your `~/share.dir/` For everything in your `~/share.dir/` please give read permission.

### **Upcoming Deadlines:**

- March 3: Final Version of Background
- March 5: Mini-Project I
- March 18: Final Version of Flow Chart
- **Fr, March 21, 3-4pm:** Main Project Talks
- March 24: 1st Version of Program for Main Project
